PAKISTAN INDUSTRIAL TECHNICAL ASSISTANCE CENTRE (PITAC)

HEALTH, SAFETY & ENVIRONMENT COURSES AT PITAC

OUR TRAINING

Keeping up-to-date with the requirements of legal compliance, technical standards and industrial best practices, is important to achieve sustainable business growth. With the help from PITAC you and your business can gain the knowledge and skills you need to continually adapt changes, keeping ahead of market developments and continuously improve your business performance. We deliver high quality OHS training across a wide range of industries in Pakistan.

TRAINING IMPACT:

In our country a significant gap in HSE culture have been found throughout our industry/commercial sectors. Some organizations are very profound towards HSE, they are taking HSE at high priority with other business objectives, and we can benchmark these organizations as role model. Trained and competent workforce has a significant impact in production growth as well as reduction in workplace accidents, this is only achievable when there will be a strong HSE culture and department.

JOB PROSPECTS IN CPEC PROJECTS:

As we know CPEC is key emerging platform as international industry haven been establishing there roots in Pakistan. These industries require the high HSE standards to meet the international law and obligation of HSE. Take into account all these need required current to fulfil the demand of our valuable national and international clients PITAC launch the HSE courses programs recognised from UK, Canada, USA and Pakistan.

TRAINING METHODS:

People have different needs and preference on training. Our training solutions are offered in a variety of delivery methods so that you can choose those that are best suited to your individual requirements and the needs of your organization.

IN-HOUSE COURSES:

We can run a standard or tailored course at your company premises designed to meet the specific needs of your organization. It is the most convenient and cost-effective solution if you wish to train a number of employees in your location. Once we have agreed the dates and location for your training course, we will work with you to identify your training needs, evaluate your training objectives and customize the course content to meet your goals

REGULAR COURSE STRUCTURE & ELIGIBILITY:

So if you fresh graduate from any discipline and ready to merge your potential in HSE sector then these courses are fit for you start your career in HSE sector. Find out more
